## *Urban Planning and Macau*

by

### **Dr. CHUI Sai Peng, José**

Ph.D., City Planning, Tsinghua University, Beijing  
Registered Civil Engineer, California, USA and Macao  
Registered Structural Engineer, California, USA

Dr. CHUI has extensive professional experience in city planning, civil and structural engineering, including many years of practice in California, USA in design and analysis of conventional and state-of-the-art onshore and offshore structures.

After returning to Macao, Dr. CHUI established CAA City Planning & Engineering Consultants Ltd. He has dedicated much effort in urban planning, project management and structural design. He was responsible for many urban studies and projects in Macao, including the "21<sup>st</sup> Century Macao City Planning Guideline Study", "Creative Industries District Conceptual Study", which has won the third prize for China's outstanding urban planning and design award held by the Construction Department of the Central Government in 2005. Currently, Dr. CHUI is a member of the expert panel on "Greater Pearl River Delta Urban Coordinated Development Planning Study" and a consultant of the Macao SAR's special committee on regional planning.

Dr. CHUI holds various positions, including the Deputy of the Macao SAR to the 11<sup>th</sup> National People's Congress (NPC), Deputy of Legislative Assembly of the Macao SAR, Convener of Sustainable Development Committee of Macao Historic Urban District Renewal Consultative Council, Council Member of the University of Macau, Chairman of Macao Urban Planning Institute etc.
